

PRESIDENT MUHAMMAD BUHARI AND 21ST CENTURY LEADERSHIP QUALITIES

Presidential Aids versus Buhari

Aaron played a major role in the Jews' escape from Egypt and their wanderings in the desert for 40 years.....Aaron acted as Moses' spokesman to Pharaoh in Egypt because Moses complained to God that he could not do it himself being slow of speech. (Ex. 4.13).....

As Nigerians and millions of friends, black and white - await anxiously for the emergence of new era of governance after many wasted years of Nigerian experiments in military and democratic rule, there may be too many reminders, notifications, warnings, directives to the in-coming administration. But only few of these may really matter, since in our case the APC government of Buhari/Osinbajo has already made of their mind on the way to lead Nigeria forward.

For many patriotic Nigerians anyway, it is important to remind Buhari, the president-elect to make full use of his vice, Professor Yemi Osinbajo, SAN, if you like, just the American proven style - JOE BIDEN and JOHN KERRY. Since Buhari (like Obama) has a lot of good stuff in his head but (unfortunately like Moses of the Israelite of old) is not eloquent in speech (who cares if he refuses to admit it), must use his brother and vice Aaron Yemi Osinbajo!

The Nigerian political experience in democratic principles can never be admired particularly in the area of President/Vice President relationships -. Obasanjo/Atiku, a disaster! Yar'adua/Jonathan, miserable show! Goodluck Jonathan/Sambo, nothing to write home about! The Vice President does not stay idle, wait until the office of the presidency is vacant or the president is incapacitated! No! He must be active as the president all the time!

But watch an exception! Buhari/Idiagbo regime! Nigerians trust Buhari. Buhari may have to sit silently and plan and execute (with law-makers or no-law-makers – these are not useful but have contributed much to Nigeria's woes!), while his vice makes all the travels and most of major statements and interviews .

Behold another LITMUS TEST for successful Buhari/APC government. May patriotic Nigerians help and make this message reach the right quarter. 29th May 2015 (Re - 1999), is another beginning!

Nigerian youths abuse elders

ONLY IN NIGERIA do the youths, the acclaimed future leaders take great interest in cursing, ridiculing, cajoling and making mockery of their parents and

elders in public and anywhere! Too bad and stinking! Buhari does not need the modern sophisticated technologies of today to effectively lead Nigeria. Like most political leaders, top business executives and even professors all over world , their aids, wives and even little kids supply the needed technical knowledge. Look at millions of technically uneducated parents whom their kids help to operate their phones, send and read simply text messages, turn on and search TV channels , teach what FACEBOOK or what twitter is all about. Buhari is not an imbecile and like most adults, black and white need everyday assistance of smart aids, speech writers and first class good advisers and secretaries. He, like many political leaders may not accept every interview unprepared and before publication such interviews must be previewed and perhaps re-edited. Nigerian youths please as you swim in the euphoria of "Freedom of the press" kindly stop and reflect.

Leadership and modern technology

All said and done, President Muhammad Buhari is not a man of the modern computer age. Out of old age or academic upbringing, Buhari needs great assistance to lead Nigeria, represent Nigeria in the comity of nations.

Today it is manifestation of ignorance of basic knowledge of facts and terms: APC, INEC, WEST GERMANY, UNO, OAU, NUMBER OF STATES IN NIGERIA, YEMI OR JUMI etc.

To avoid any further deterioration or total breakdown in correct and acceptable protocols in public speech and modern governance, we insist that Buhari needs desperately many competent aids, who should sit up and direct and assist the president.
